About

# Install Browser Extension

WALLIX Enterprise Vault uses browser extensions for **Chrome** and **Firefox**. These must be installed before using WALLIX Enterprise Vault.

Click on the **Browser Extension** link from the **User Menu**.

The screenshot shows the WALLIX Enterprise Vault web interface. At the top, there is a navigation bar with links for 'Vaults', 'Send', 'Tools', 'Reports', and 'Shared vaults'. On the right side, there is a user profile dropdown menu for 'Priscilla Deegan' (PD). The menu items are: 'Account settings', 'Get the apps', 'Browser extension' (highlighted with a red box), 'Lock now', and 'Log out'. The main content area is titled 'BROWSER EXTENSIONS' and contains a sub-section 'Browser extensions' with the text: 'Download browser extensions to make using your vault easier'. Below this, it says 'Extensions allow you to easily manage and use your vault by integrating it into your browser.' and 'You can get browser extensions at this url'. There are two logos: the Firefox logo and a Chrome logo with the text 'Available in the Chrome Web Store'.

Alternatively, click on the **Browser extension setup** link on the top right-hand side of your web browser.

This will display the Browser Extension Configuration Screen.

Click on the **Install and configure** button to install the WALLIX Enterprise Vault Extension for the browser you use to access your WALLIX-Vault.

Vaults Send Tools Reports Shared vaults **Browser extension setup**

**BROWSER EXTENSIONS**

Download browser extensions to make using your vault easier

## Browser extensions

Extensions allow you to easily manage and use your vault by integrating it into your browser.

The WALLIX vault browser extension was not detected on this browser

**Install and configure**

You can get browser extensions at this url

**Firefox**

Available in the **Chrome Web Store**

Click the **Add to Chrome** button to install the browser extension (this process is similar for Firefox).

You can now use the browser extension.

# Install Mobile Application

The WALLIX-Vault mobile application is available on Google Play for Android devices and App Store for Apple devices.

Select **Get the apps** in your Account Menu to display the Mobile Apps page.

The screenshot shows the WALLIX-Vault web interface. At the top, there is a navigation bar with links for 'Vaults', 'Send', 'Tools', 'Reports', and 'Shared vaults'. On the right side, there is a user profile dropdown menu for 'Priscilla Deegan' (PD). The menu items are: 'Account settings', 'Get the apps' (highlighted with a red box), 'Browser extension', 'Lock now', and 'Log out'. The main content area is titled 'Browser extensions' and includes a sub-section 'BROWSER EXTENSIONS' with the text 'Download browser extensions to make using your vault easier'. Below this, it says 'Extensions allow you to easily manage and use your vault by integrating it into your browser.' and 'You can get browser extensions at this url'. There are two logos: the Firefox logo and the Chrome Web Store logo with the text 'Available in the Chrome Web Store'.

Scan the **QR code** with your device to set up your account on the WALLIX Enterprise Vault mobile app.

## APPLICATIONS

Download mobile apps to  
make using your vault easier

## Mobile Apps

Install mobile applications to always have your vault with you and secure access to your mobile applications.

## Configure mobile applications with a QRCode

Scan a QRCode to setup your account on the WALLIX Vault mobile app.

This downloads and **installs** the app **with your user account details**.
