

# Change Language

By default, WALLIX Enterprise Vault uses the language of the Web Browser.

To change the language of the screens in WALLIX Enterprise Vault, click on the **Account Settings** button in the User Menu.

This opens the **Preferences** Screen.

Choose the language from the **Language** dropdown menu.

Click the **Save** button to save the user interface language.

**ACCOUNT SETTINGS**

- My account
- Security
- Preferences**
- Domain rules

**Preferences**

Customize your web vault experience.

**Vault timeout**

15 minutes

Choose when your vault will take the vault timeout action.

**Vault timeout action**

**Lock**  
Master password or other unlock method is required to access your vault again.

**Log out**  
Re-authentication is required to access your vault again.

**Language**

en - English

Change the language used by the web vault.
