

Rename Shared Vault

From the **Shared Vault screen** in the **Settings** Tab, rename the Shared Vault in the **Shared Vault Name** field.

Click **Save** to save changes. The Shared Vault is renamed.

The screenshot displays the 'Shared vault info' settings page for a vault named 'Gryffindor Vault'. The interface includes a top navigation bar with 'Vaults', 'Send', 'Tools', 'Reports', and 'Shared vaults'. A sidebar on the left lists 'Vault', 'Members', 'Reports', and 'Settings' (which is active). The main content area shows the 'Shared vault name' field with the current name 'Gryffindor Vault' and a 'Save' button. A red box highlights the 'Shared vault name' field and the 'Save' button. To the right of the field is a blue circular icon with 'GV'. Below the settings section is a 'Danger zone' with a warning message and two buttons: 'Delete shared vault' and 'Purge vault'.
