

Unlock with Biometrics

Unlock with Biometrics is a feature that is available for WALLIX Vault for the **Browser Extension** and **Mobile apps**.

Biometrics are part of your **Operating System** or **Mobile Device**. **WALLIX Vault** does **not** receive **biometric information** about an **Account**.

Enable Unlock with Biometrics

From **Settings** menu on your mobile device, **turn on** and **enable Biometrics**.

From **WALLIX Mobile App**, open **Settings > Account Security**.

Check the **Biometrics option** you wish to **enable**. For **iOS** the following options are available:

Unlock with biometrics	<input checked="" type="checkbox"/>
Ask for biometrics on launch	<input checked="" type="checkbox"/>

In **iOS**, a **Pop up screen** appears to request confirmation of this change.

"WALLIX Vault - Free Password Manager" has requested additional permissions.

It could:

Communicate with cooperating native applications

AllowDeny

Tap **Allow** to **enable biometrics**.

Tap **Deny** to cancel the operation.
