About

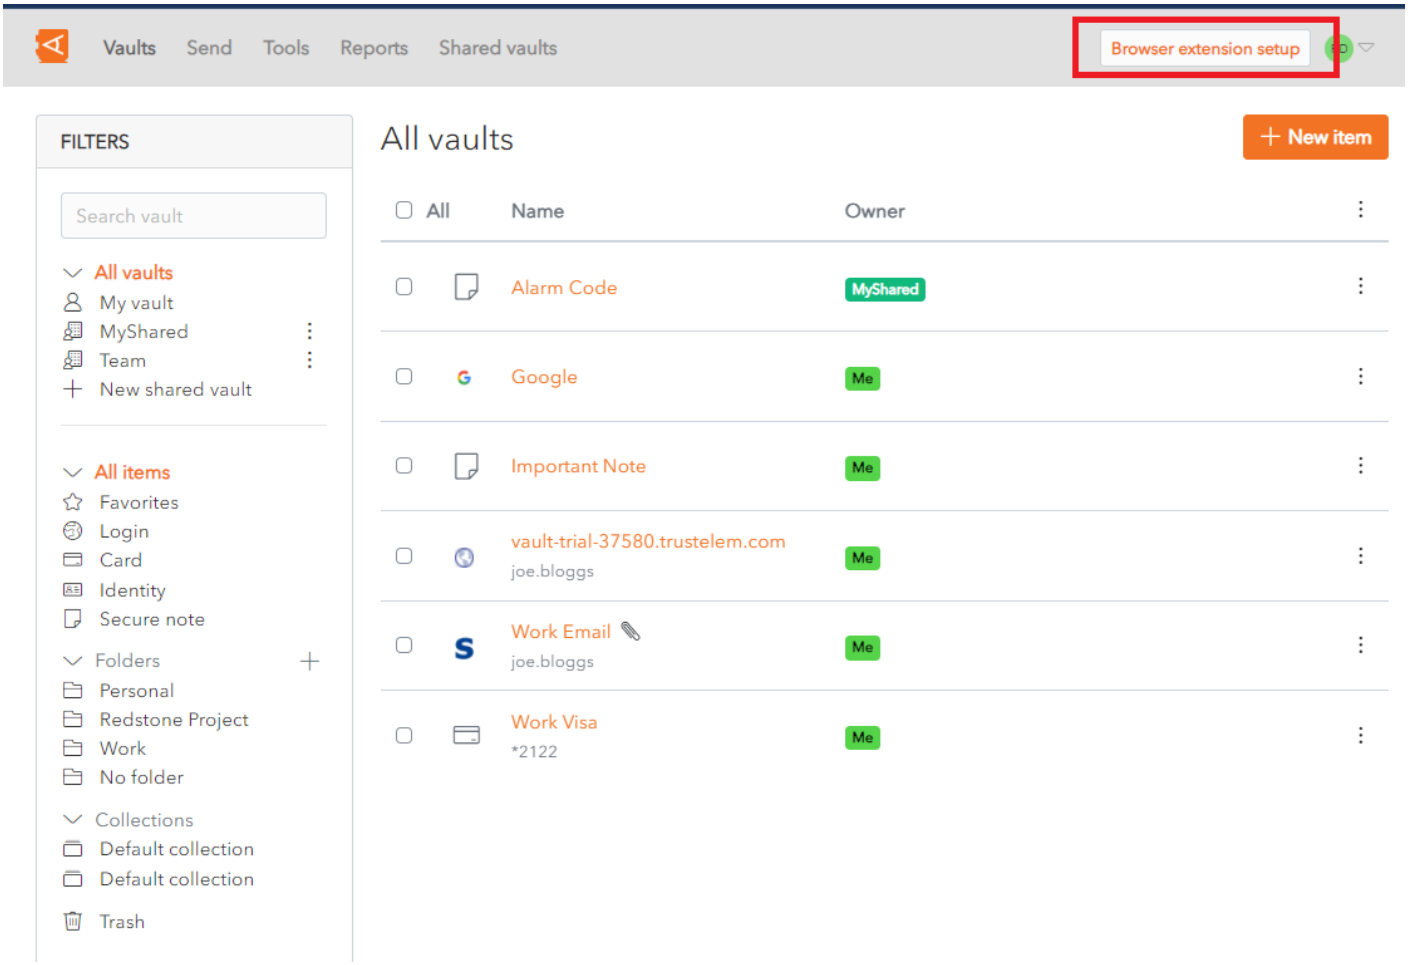

# Install Browser Extension

WALLIX Enterprise Vault uses browser extensions for **Chrome** and **Firefox**. These must be installed before using WALLIX Enterprise Vault.

Click on the **Browser Extension** link from the **User Menu**.

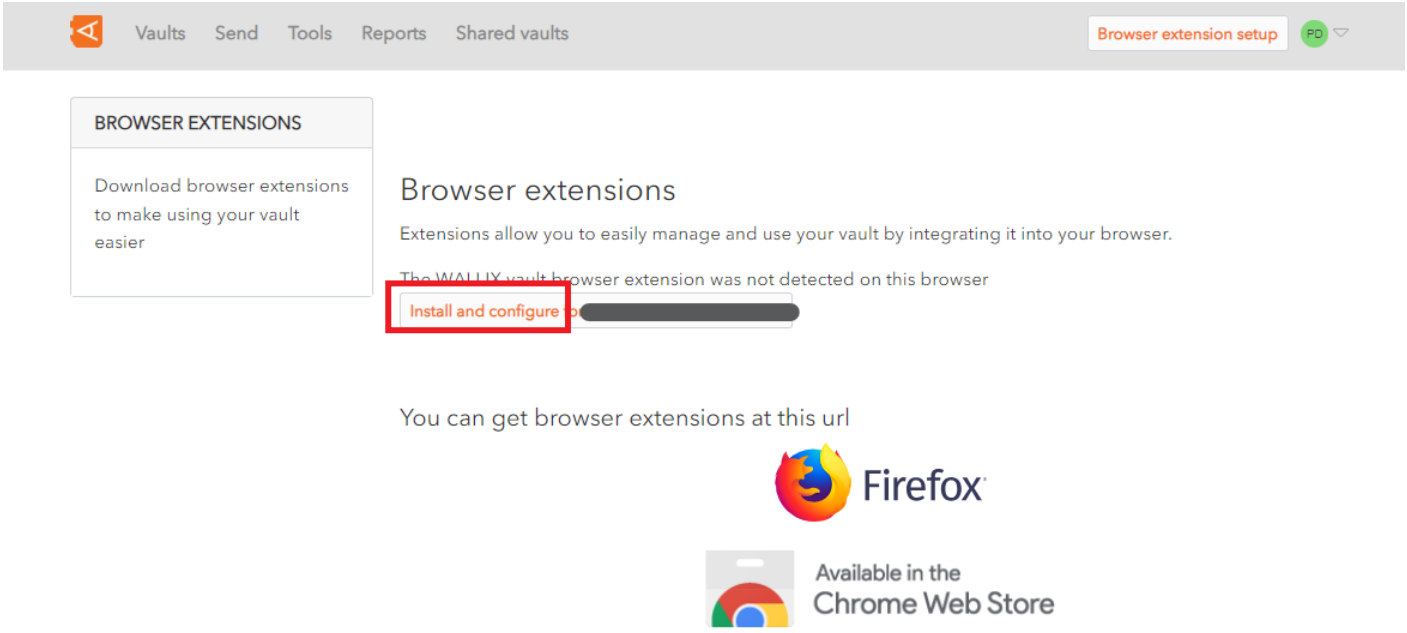

Alternatively, click on the **Browser extension setup** link on the top right-hand side of your web browser.

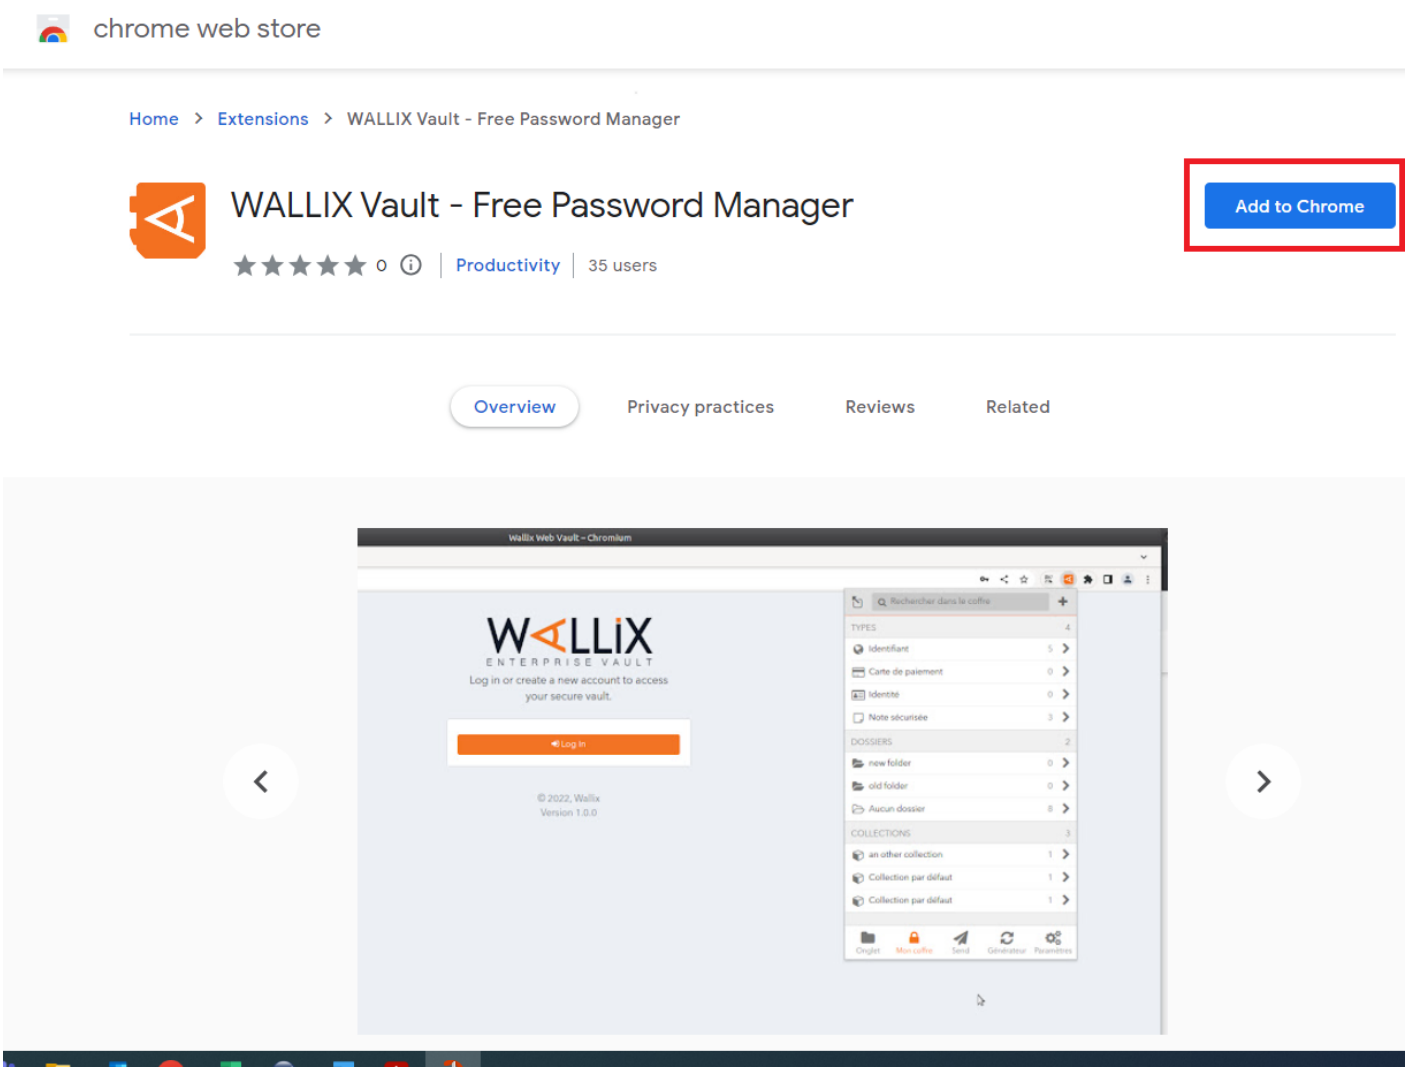

This will display the Browser Extension Configuration Screen.

Click on the **Install and configure** button to install the WALLIX Enterprise Vault Extension for the browser you use to access your WALLIX-Vault.

Click the **Add to Chrome** button to install the browser extension (this process is similar for Firefox).

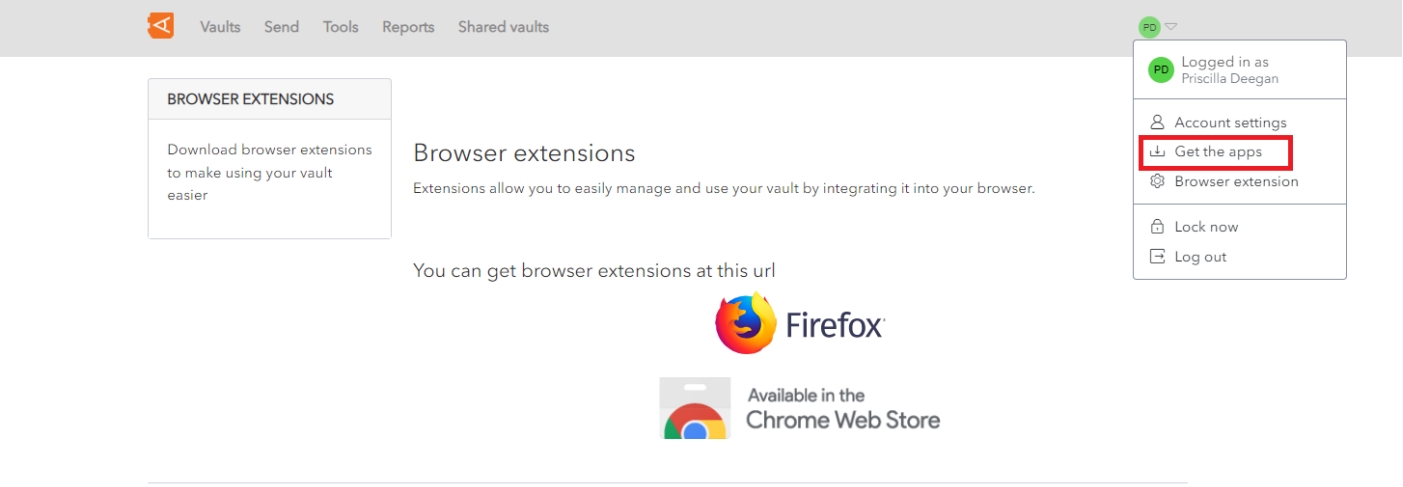

You can now use the browser extension.

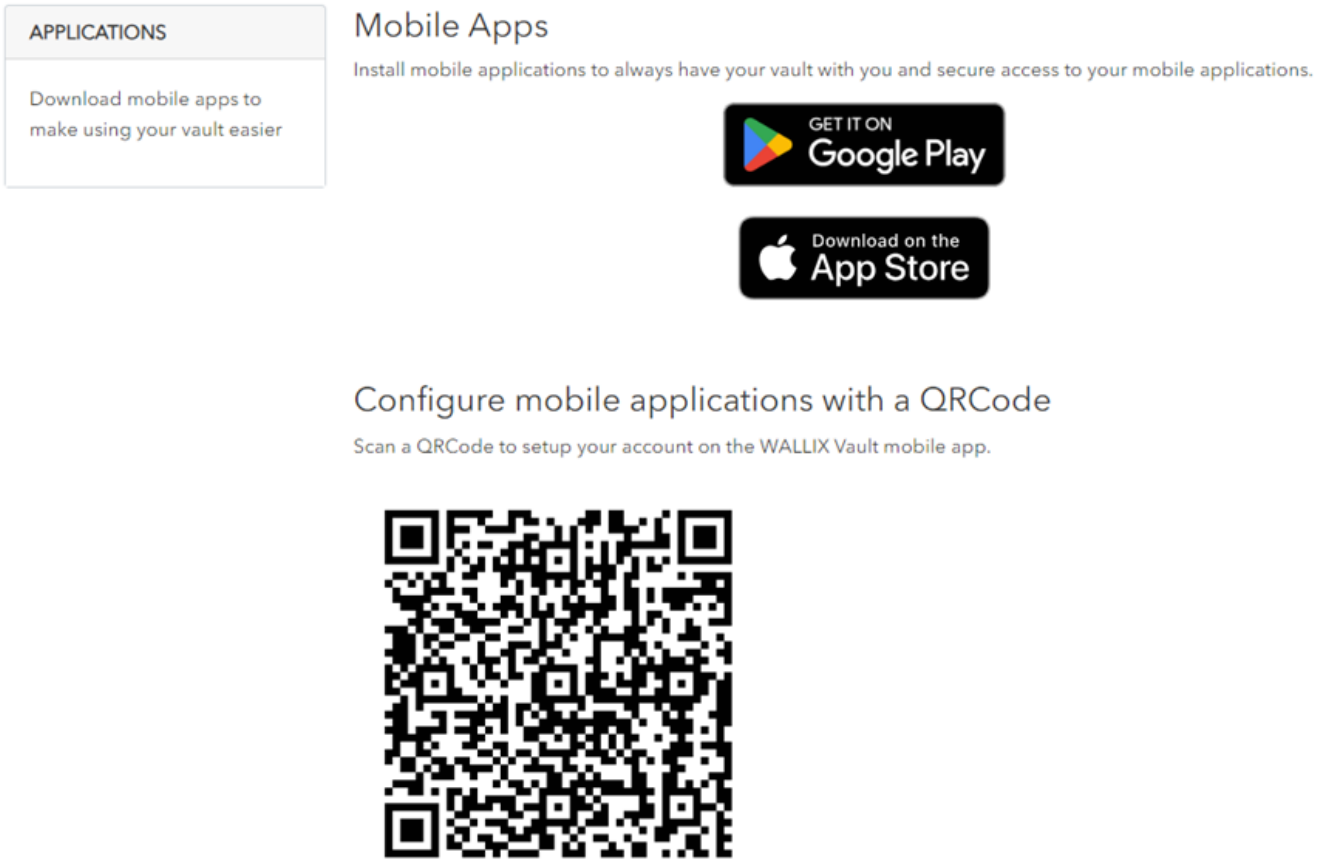

# Install Mobile Application

The WALLIX-Vault mobile application is available on Google Play for Android devices and App Store for Apple devices.

Select **Get the apps** in your Account Menu to display the Mobile Apps page.

Scan the **QR code** with your device to set up your account on the WALLIX Enterprise Vault mobile app.

This downloads and **installs** the app **with your user account details.**
