Grant Trustelem Data Recovery Permissions

As an Vault Administrator, follow this procedure to **Grant Data Recovery Permissions** in the **Trustelem** application to an User.

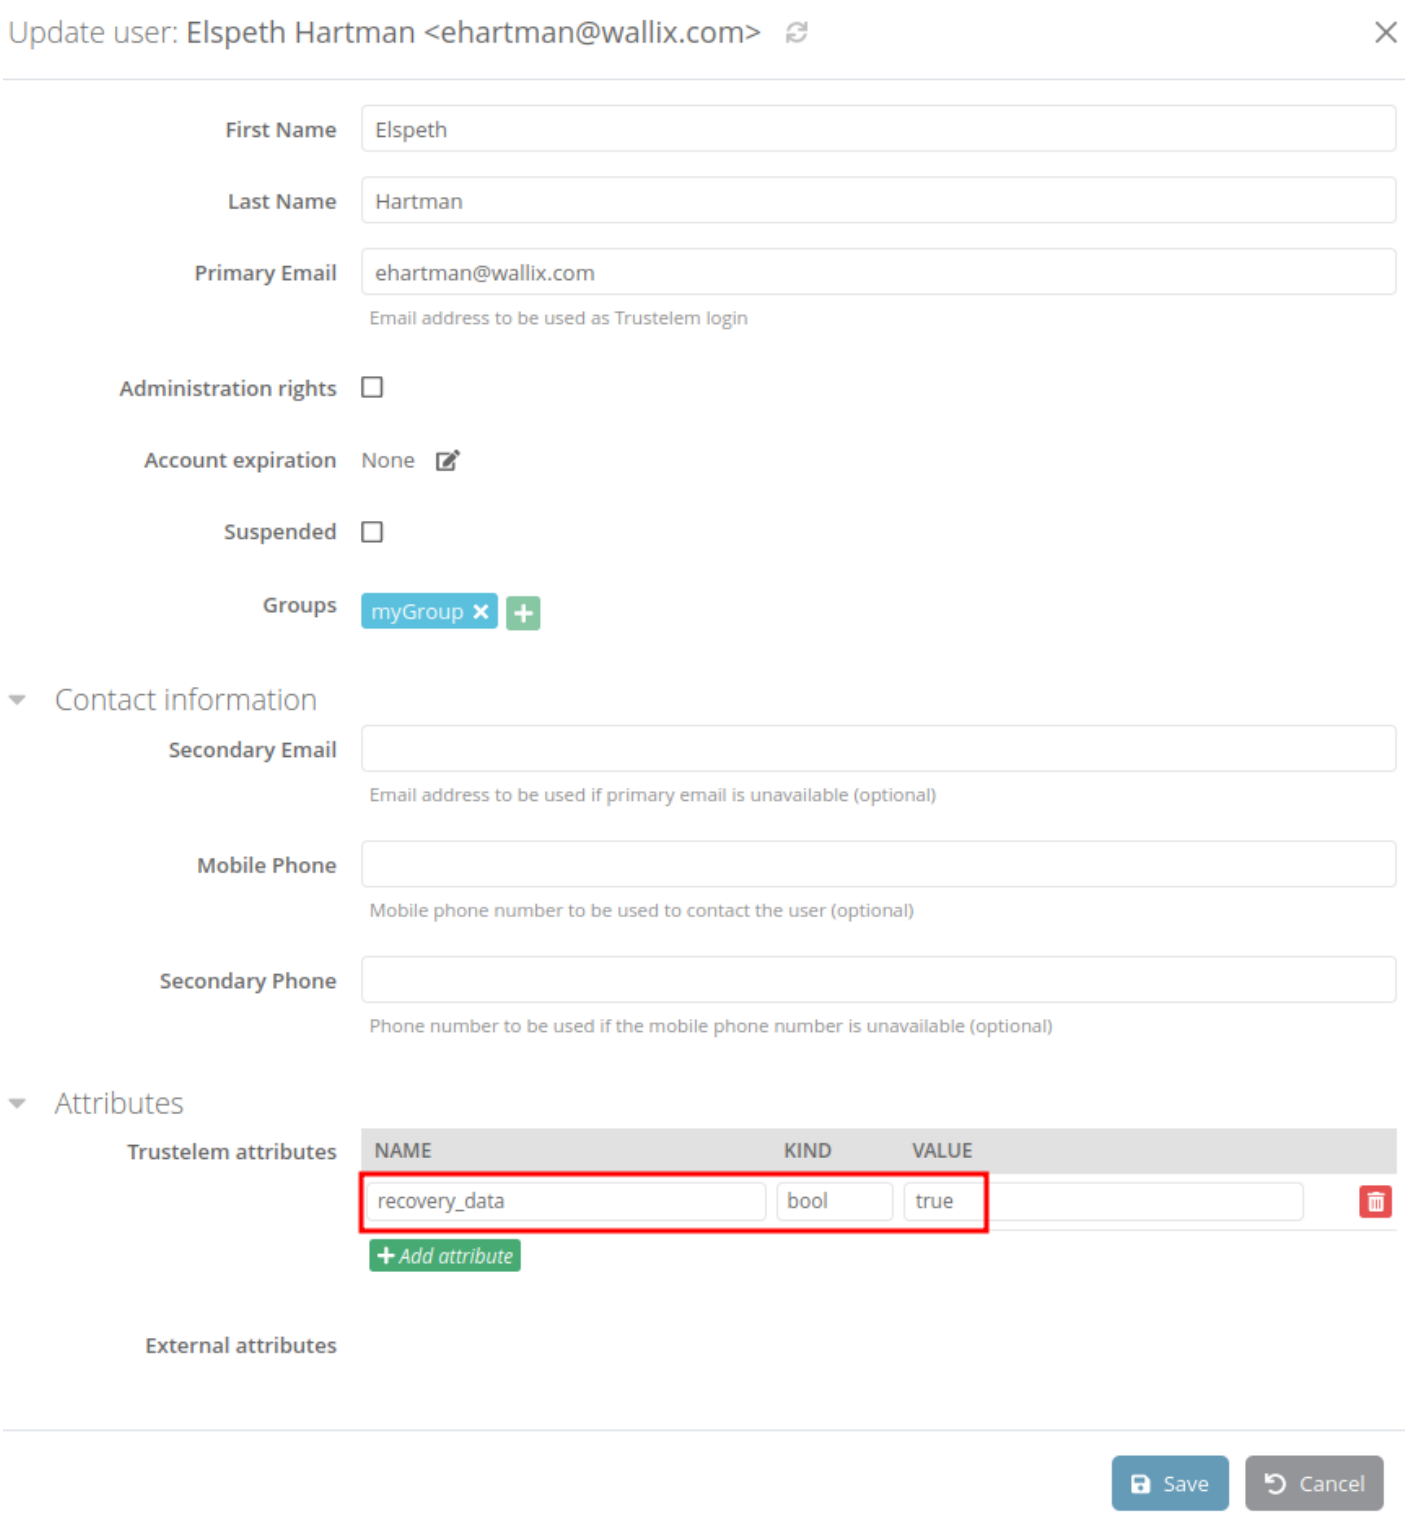

Users with this **permission** can **create data recovery requests**.

Grant Recovery Permissions

Connect to **Trustelem**.

Select the **User Menu** on the top right-hand side of the screen. The **User List** is displayed.

Select the **User** to give Password Recovery permissions to and click the **Modify** button. The **User Update screen** is displayed.

In the Attributes section, click the **Add an Attribute** button. A blank line is added to the **Trustelem Attributes** table.

Complete the fields as follows:

- NAME : **recovery_data**
- TYPE : **bool**
- VALEUR : **true**

Click the **Save** button to save the new attribute to the User.

The Trustelem attribute **recovery_data** displays in the **Attribute List**.

This **User** can now **create data recovery requests**.

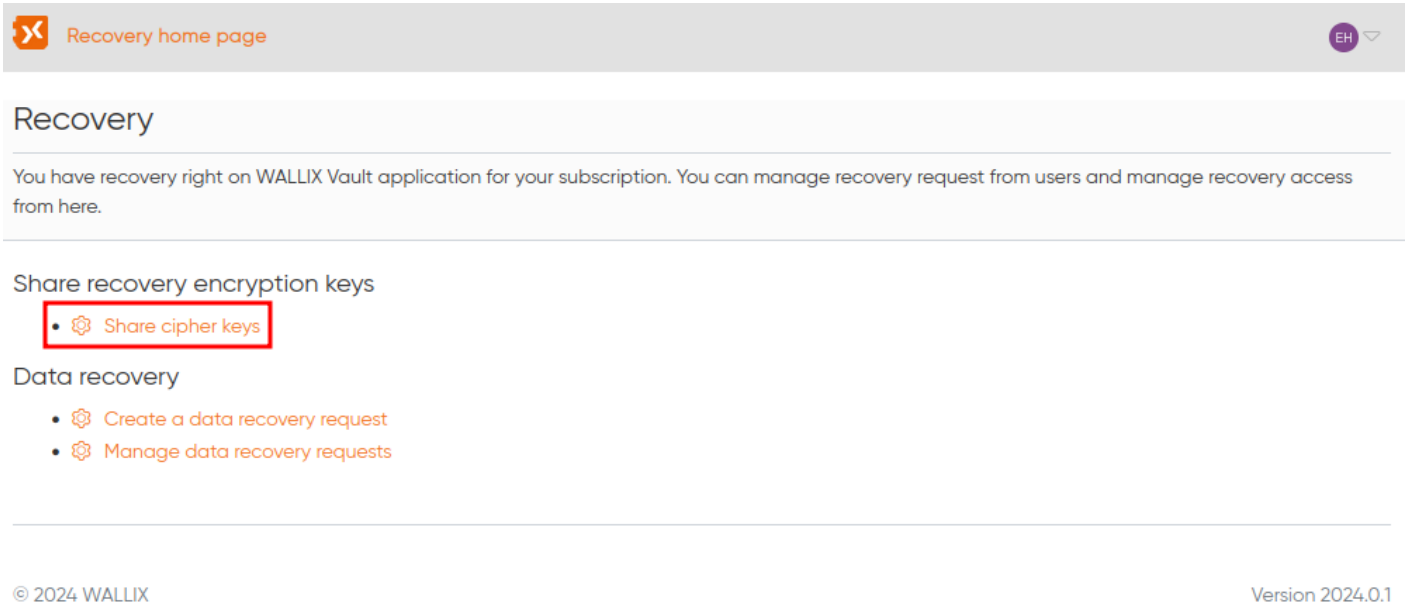

To manage approbator groups for data recovery, the user must have an attribute **recovery_data_workflow**. After that he can **manage approbators groups**.

Share cipher key

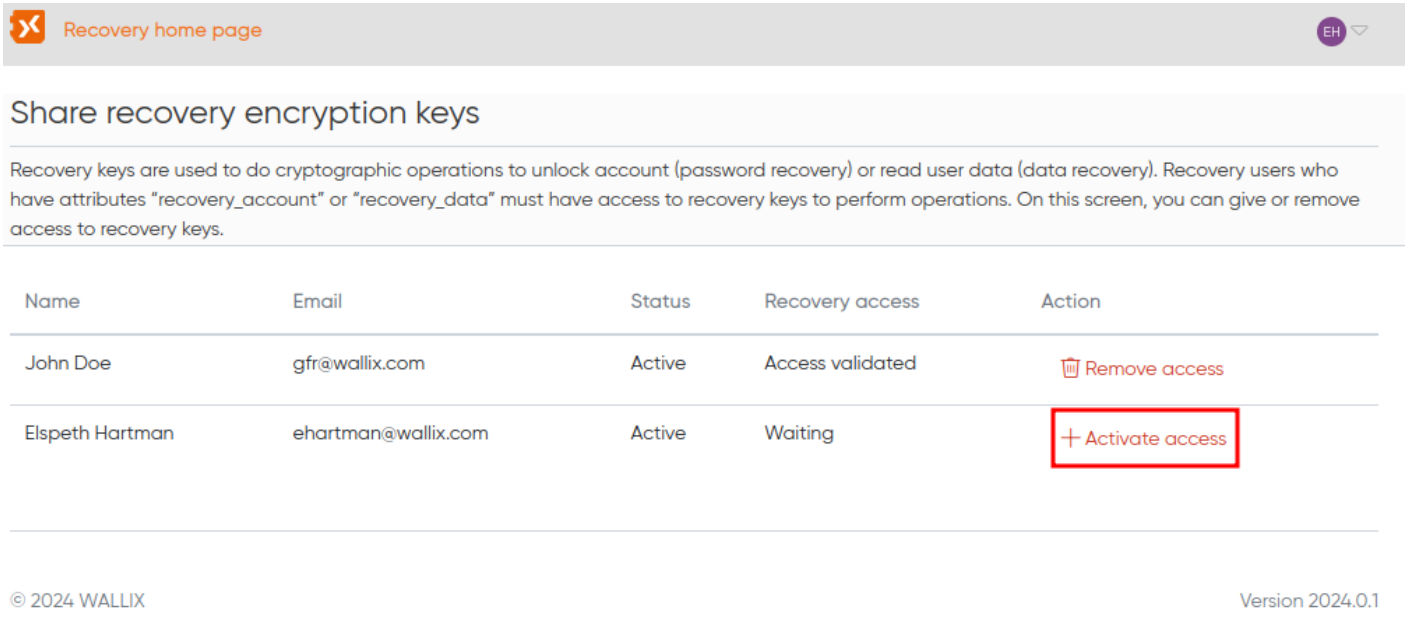

In order to enable completely the data recovery permissions, you have to share the cipher key.

Important: This step must be done after granting the *recovery_data* attribute.

Go to the recovery home page (Tools > Recovery in default navigation bar) and click on the "Share cipher keys" link as below:

The cipher key management page is displayed. You can now share the cipher key with any user who has the *recovery_data* attribute:

Congratulations! The user can now create a data recovery request for any vault user.
