Preferences

Customize your web vault experience.

Vault timeout

Choose when your vault will take the vault timeout action.

Vault timeout action

Lock

Master password or other unlock method is required to access your vault again.

Log out

Re-authentication is required to access your vault again.

Language

Change the language used by the web vault.

Show website icons

Show a recognizable image next to each login.

Display full width layout

Allow the web vault to expand the full width of the browser window.

Theme

Choose a theme for your web vault.

Save

The following options are possible:

- **Vault timeout:** Set the Vault timeout from the dropdown. The **default** is **15 minutes**.
- **Vault Timeout action:** Choose Lock or Log-out as the action to take on timeout. The **default** is **Lock**.
- **Language:** Choose the language of the user interface.
- **Show website icons:** Check to show a recognizable image beside each Login. **This is checked by default**.
- **Display full width layout:** Check to allow the Web Vault to take up the full width of the browser window. This is **unchecked by default**.
- **Theme:** Choose from the dropdown. **Options** include Light, Dark and System Theme.

Click **Save** to save changes.
