

Purge Shared Vault

From the **Shared Vault Screen**, click on the **Settings Tab**.

Click the **Purge Vault** button to purge all data from the Vault.

The screenshot shows the Gryffindor Vault interface. At the top, there is a navigation bar with 'Vaults', 'Send', 'Tools', 'Reports', and 'Shared vaults'. Below this, the 'Gryffindor Vault' header is visible, along with a dropdown menu. The 'Settings' tab is selected, and a sidebar on the left contains options like 'Shared vault info', 'Import data', and 'Export vault'. The main content area is titled 'Shared vault info' and shows the 'Shared vault name' as 'Gryffindor Vault' next to a blue 'GV' icon. A 'Save' button is present. Below this, a 'Danger zone' section contains a warning: 'Careful, these actions are not reversible!'. Two buttons are shown: 'Delete shared vault' and 'Purge vault', with the latter being highlighted by a red rectangular box.

A **Confirmation Screen** appears.

Enter your **Master Password** and click the **Purge Vault button** to purge the Vault.

Alternatively, click **Close** to cancel the operation.

PURGE VAULT

Proceed below to delete all items in the shared vault's vault.

 **WARNING**

Purging your vault is permanent. It cannot be undone.

Master password

Confirm your identity to continue.
