Unlock with Biometrics

Unlock with Biometrics is a feature that is available for WALLIX Vault for the **Browser Extension** and **Mobile apps**.

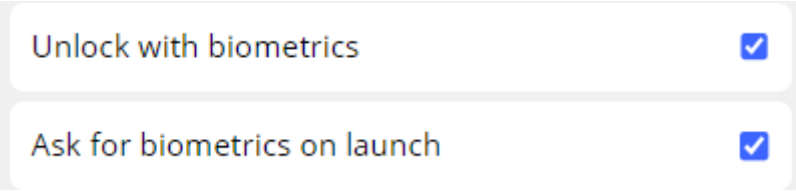

> **Biometrics** are part of you **Operating System** or **Mobile Device**. **WALLIX Vault** does **not** receive **biometric information** about an **Account**.

Enable Unlock with Biometrics

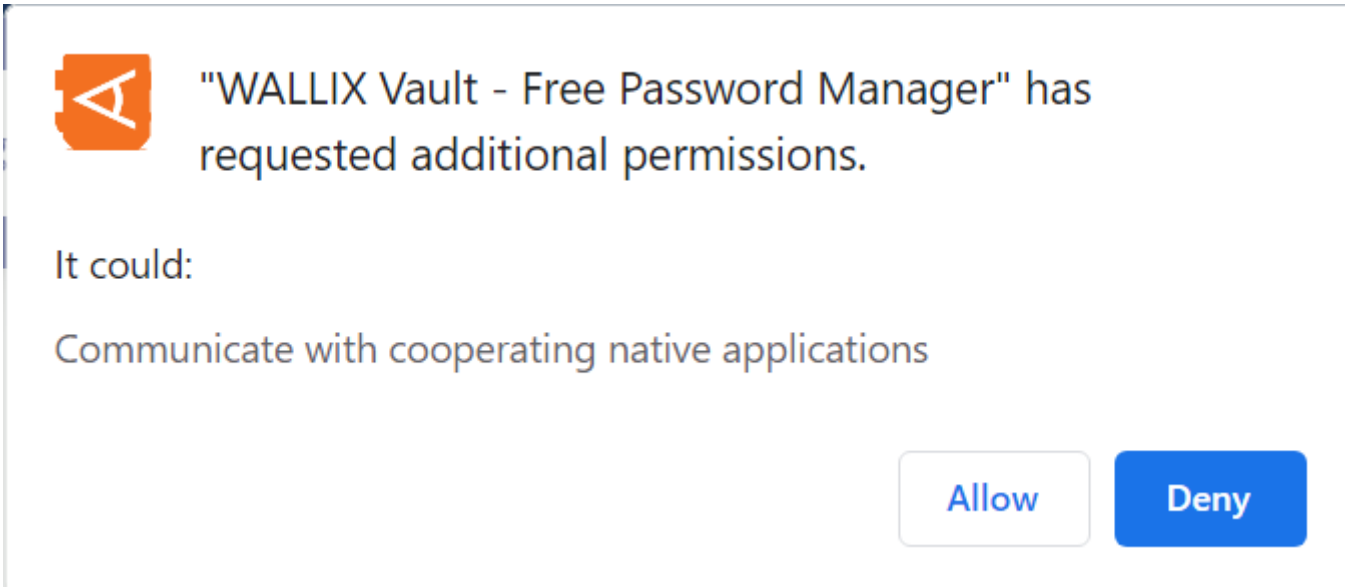

From **Settings** menu on your mobile device, **turn on** and **enable Biometrics.**

From **WALLIX Mobile App, open Settings > Account Security.**

Check the **Biometrics option** you wish to **enable.** For **iOS** the following options are available:

In **iOS**, a **Pop up screen** appears to request confirmation of this change**.**

Tap **Allow** to **enable biometrics.**

Tap **Deny** to cancel the operation.
